SUBJECT.

Further concessions to Mr. B.K. Narayana Rao in connection with his visit to European Countries

---

To the Comptroller to Govt., Thro' Financial Advr.
" Senior Surgeon in Mysore
Mr. 1013-4/ C.S. dt 17/10/33

Directed that Mr. B.K. Narayana Rao be granted the expenses incurred by him on account of travel & pass etc. subject to a maximum limit of Rs 1750/-.

Re Certain regns Payment of bills for Purchase of Instruments by & reimbursing the Travg Expenses of Mr B. K Narayana Rao

Serial No.

Letter dated 10.7.1933 from the Jt Secy to the Dewan & the Trade Comr for Mysore in London, enclosing a copy of letter dated 8.7.1933 recd from Mr B. K. Narayana Rao and requesting approval of the Dewan to make payments to the Firm at the request of the Doctor

There are two points raised

1) Advance of funds to meet the bill for the purchase of Instruments in regard to this

No further actions seems necessary ~~in this regard~~ except the Settling of accounts Mr Narayana Rao has stated that he will be responsible for this.

A copy of this letter may perhaps be sent to the Sr Surgeon & the Comptroller for information.

2). Reimbursing Mr B. K. Narayana Rao of the Expenses incurred in the Travel

The total of the Expenses incurred is said to be £ 410.

The papers sanctioning the deputation of this Officer are in the Confdl Branch.

This ~~CB~~ may question may also be returned to them for being worked up.

Med. File 26-33-2 Sanctg the purchase of Instruments etc by Mr B K Narayana Rao up to a limit of Rs 5000 is put up for reference

[This question dealt with separately in Dr. M. Row's (Medical) file No. 26-33-2 Necessary action taken

File No. 506 of 193 . | General and Revenue Secretariat

The amount promised by Govt towards Dr. B.K. Narayanarao's visit to Europe was limited to a maximum of Rs. 2000. In view however, of the heavy expdr incurred by him, it may perhaps be raised to Rs. 2750. This would cover his expenses on account of travel and fees and expenses re study.

Rs 5350 to 5500

II-nd wanted thro. Finl Sy & Dewan. RS 12/9/33

F 761 / 13-9-33

As observed by Mr. Shamanna, the officer has gone on leave and the payment of Passage and Travelling Allowances is not admissible to such officers.

Even when the original proposal was under consideration it was known that expenses for travel were likely to work up to about Rs 2,500/- but a maximum limit of Rs 2,000/- was specially fixed.

In view however, of the additional expenditure which the officer is stated to have incurred, I would suggest that the maximum amount payable by Government to Dr. B.K. Narayana Rao may be raised to Rs 2,400/- AD 25-9-33

Private Secretary to the Dewan on Mysore,
Dorchester House Hotel,
London,W. 1.

Dear Sir,

I shall thank you to bring the following in connection with my present trip to Europe, to the kind notice of the Dewan Sahib.

At the outset I wish to gratefully acknowledge the immense professional value of this trip, which was undertaken at the initiative of and kind encouragement from the Dewan Sahib; and it enabled me to study the latest scientific methods of work in the various Universities under the most famous Professors and Surgeons. I am also thankful for the sanction of Rs.2000 for travel and the subsequent permission regarding fees.

The facts are these:-

A. Expenses for ~~pure~~ mere travel from place to place.

| | | |
|---|---|---|
| a. | Bangalore to Bombay Railway | Rs.78 |
| b. | Bombay to Marseilles;by steamer and rail to London | £81.0.0 |
| c. | Baggage Insurance,&c. | Rs.31 |
| d. | Railway (2nd class) & steamer - London - Amsterdam, Berlin, Prague, Vienna, Zurich, Paris, London. | £21.10.5 |
| e. | Vienna to Budapest & back | £3.12.0 |

LONDON, W.1.

28th July, 1933.

T.Sinagaravelu Modeliar,Esq.,B.A.,B.L.

The present trip, though apparently a little more expensive, was rendered necessary as I had to attend the United Kingdom Ophthalmic Congress from 7th to 10th May in London; attend the Continental Clinics in May and June before the long vacation commenced in July, when many of the Continental Professors go on a holiday, and be back in London to attend the Social Hygiene Congress between 3rd and 7th July and the Oxford Ophthalmic Congress between 6th and 10th July. I had to arrange my journey most economically and usefully to the time at my disposal, though somewhat expensively.

In connection with my personsl financial capacity for the strain of an expensive trip like this, I wish only to mention that my monthly salary (pay and all allowances) was in 1929 - Rs.1250

in 1930 - Rs.1250 and later 1200

in 1931 - Rs.1200 and later 1150

in 1932 - Rs.1060

in 1933 - Rs.1060 and now 1052.

This graduál reduction was due to purely accidental factors like removal of Medical College allowances, reduction of duty allowance and salary cut. I am mentioning this ~~purely~~ simply as a relevant fact and not as a reasonable grievance. One finds it very difficult to adjust oneself to continuously lowered incomes, as in my case.

Further, this trip has entailed loss of the small amount of consultation practice that is available at Bangalore during these summer months (from visitors).

I beg to impress that I am not writing this in a spirit of grievance at all, but ~~simply~~ merely to put forth facts for a consideration for such further concessions as may be considered reasonable and opportune - especially in view of

T.Sinagaravelu Modeliar,Esq.,B.A.,B.L.

the fact that onformer occasions medical officers of my status had the good fortune of being treated much more liberally.

Finally, I beg to convey my grateful thanks for the opportunity of this trip and all its professional advantages, which, I feel, far outweigh the financial embarassments.

I remain,

dear Sir,

Yours obediently,

Supt. Minto Oph. Hospital.

Dear Sir Sivaravelu Mudaliar

Herewith I am sending the following papers for your perusal

(1) Copy of Recognition of Minto Hospl - by Conjoint Board of Exn of Royal Coll of Surgeons & Physicians

Sd for perusal. 28/7/33

(2) Copy of private letter from Professor of Ophthalmology at Oxford - assuring recognition though no formal list is published.

(3) An account of action taken by Dr Robinson & myself regarding recognition of our M.P.S.P.S line.

With best regards

Yours sincerely

28/7/53

COPY of Private Letter of Professor Adams

THE CARDINAL'S HAT,

6, HOLYWELL,

OXFORD.

Telephone 2442.

May 29/33.

Dear Dr.Rau,

I've submitted your papers to the Dean of the Faculty of Medicine and he has replied that the Board does not give permanent approval of particular Hospitals, but that it is certain that Certificates from the Minto Ophthalmic Hospital would be recognised as long as the Hospital maintains its present high standard.

The Committee of the Board of Faculty will, therefore, recognise it for 10 months training, towards the 1 year required by the regulations.

Yours sincerely,

(Sgd.) P.H.ADAMS.

No official list of Hospitals recognised is published.

P.H.A.

COPY.

EXAMINATION HALL,

8-11, QUEEN SQUARE,

S. LONDON, W.C.1.

7th June, 1933.

Dr.B.K.Narayana Rau,
Superintendent, Minto Ophthalmic Hospital,
c/o. Messrs.Coutts & Co.,
440, Strand, London, W.C.2.

Dear Sir,

With reference to my letter of May 19th, I have now submitted your application to the Committee of Management of this Board, and I am directed to say that it has been decided that the Minto Ophthalmic Hospital may be recognised for six months of the clinical work required by the regulations for the Diploma in Ophthalmic Medicine.

Yours faithfully,

(Sgd.) HORACE H. REW,

Secretary,
The Examining Board in England.

28th July, 1933.

To

The Registrar,
University of Mysore,
MYSORE.

Dear Sir,

I wish to inform you that in anticipation of approval, Dr. Robinson and myself have taken the following action in regard to recognition of our M.B.,B.S. courses by the Conjoint Board of Examination of the Royal College of Physicians in London and the Royal College of Surgeons in England.

By amendments to their Regulations made so recently as November 1932 and coming into effect from July 1933 - medical graduates (M.B.,B.S.) of all Indian Universities except Mysore and Osmania are allowed to appear for the Final L.R.C.P.,M.R.C.S. Examination without putting in any further study and without passing the first and second examinations. Mysore medical graduates would be required to put in two years extra study and required to pass the second M.R.C.S. before being allowed for the Final.

Under the same Regulation as amended, Mysore medical Undergraduates would be denied certain credits granted to similar undergraduates of British Indian Universities.

We did the following:-

(1) On 12/7/33 both of us interviewed the Secretary, Conjoint Examination Board, explained our position and difficulties, tried to remove certain doubts (including one whether we were teaching in the English language!!), pointed out relevant portions in our Calendar and left with the Secretary a copy of our University Calendar and a copy of a book giving accounts of all our main teaching Hospitals in the State (published for League of Nations Health Committee).

28th July, 1933.

The Registrar,
University of Mysore.

The Secretary referred to the correspondence from our University, and we told him our interview was in continuation of the same. The Secretary promised to put the matter before the Board.

(2) On 13/7/33 we sent a letter in continuation of our interview so that there might be a record of the points submitted by us. Copy of this is enclosed.

(3) On 22/7/33 interviewed Assistant Secretary but was informed that as the Agenda was heavy, this subject, along with some others, had been postponed for consideration after the holidays in latter part of September.

(4) On 24/7/33 Dr.Robinson and myself again interviewed the Secretary and explained certain other aspects which we feared might possibly go against us by default. We pointed out the urgent nature of the request, and the Secretary asked us to see that any M.B.,B.S. graduate who wished to come early next academic year, made his application as early as he can and he would put up the case before the Chairman, even if the Board had not come to a general decision. He appeared reasonably favourable.

(5) On 25/7/33 we submitted a second letter in continuation of the first - copy enclosed.

Dr.Robinson will interview the Secretary once again in latter part of September. Meanwhile if any ..B.,B.S is keen on coming here, it is better that he is provided with all detailed certificates of the whole course, signed by Professors, and the whole - together with a formal applicatio submitted by the student to the Secretary, Conjoint Examinati Board, Examination Hall, Queen's Square, Bloomsbury, London. If one or two of likely comers apply, it will expedite consideration, and, if decision is favourable, may form a good precedent, even apart from a formal decision in the

20th July, 1933.

The Registrar,
University of Mysore.

course of time.

Anyhow, the matter requires to be brought up again and again if decision is not entirely in our favour. Appearances at present seem to be favourable to us.

I remain,

Dear Sir,

Yours sincerely,

sd/ P.K. Narayana Rao.

Copy submitted to the Private Secretary to the Dewan of Mysore for favour of kind notice of the Dewan Sahib.

13th July, 1933.

To

The Secretary,
Examining Board in England of
The Royal College of Physicians in London and
The Royal College of Surgeons in England.

Sir,

In continuation of our personal interview with you, for which we are thankful, we are submitting this letter explaining the case for inclusion of the Mysore University Medical College in the list of recognised institutions under Section II of Special Regulations, Chapter III.

A separate University for Mysore was established in 1916, but the Medical College was opened only in 1924 and the first batch of seven Medical Graduates (M.B.,B.S.) passed out in 1929. Since then about 5 to 8 students have been graduating every year, the annual admissions to the Course being limited to 20 to secure efficiency in teaching. Recently, some of these have been seeking to pursue higher studies in medicine in Great Britain and so there has arisen an urgent need for a recognition of our Medical College as entitling its students and graduates to privileges similar to those extended to all the other University and Government Medical Colleges in India.

We wish to draw your kind attention to the following facts:-

A. Preliminary minimum general qualification for Entrance to the Medical Course:- is the I.Sc. of Mysore University. This has been recognised to be equivalent to the I.Sc. (the minimum general qualification required for medical studies) of the Universities of Bombay, Calcutta and Lucknow, (vide Calendar Pages 524, 525 and 526); and anyone possessing the I.Sc. of Mysore is eligible for admission to the King George's Medical College, Lucknow, Calcutta Medical College, Carmichael

Medical College, Grant Medical College and the Seth Gokuldas Medical College - all of which are in your schedule of recognised institutions. The Mysore I.Sc. would doubtless be admitted to any other recognised institution in your schedule - when reciprocity is arranged between the Mysore University and that institution - which has not yet been done as no need has arisen up to the present.

N.B. Though the minimum general quailfication is the I.Sc. (with Physics, Chemistry, Botany and Zoology), more than 50% of the candidates admitted are B.Scs. of Mysore, a degree recognised by the London University for post-graduate work in Science (M.Sc., Ph.D.,etc.)

B. The Medical Course for the M.B., B.S., extends over 5 years and is based on the model of the London University. Clinical work is done in the various general and special State Hospitals of Mysore as the following:-

Victoria Hospital (General)

Krishmarajendra Hospital (General) with an Eye Department.

Minto Ophthalmic Hospital.

Two Maternity Hospitals.

Mental Hospital.

Infectious Diseases Hospital.

Tuberculosis Hospital and Sanatorium.

These institutions represent a total of 1200 beds.

About 3,000 confinements are conducted every year in the teaching Maternity Hospitals giving ample opportunities to students who are not restricted here by the purdah system as are students in Northern India (Vide Calendar Pages 51 to 56).

C. Examinations (vide Calendar Pages 53 to 56). There are four University Examinations during the Medical Course. Separate minima are demanded in every subject, and also in the clinical and practical portions of most subjects. Pathology, Ophthalmology, Hygiene and Forensic Medicine form distinct subjects at the examinations. The pass minimum level is about the highest demanded in any University in India. Some of the external examiners are the Professors of Bombay, Madras and Andhra Universities.

D. Laboratories and Staff:- Physics, Chemistry, Zoology and Botany are taught in the University Science Laboratories which are considered to be among the best in India. There are well equipped laboratories for Physiology, Pathology and Biochemistry. Instruction in Hygiene and Bacteriology is conducted in the State Public Health Laboratory. The Pharmacology Laboratory is small and is being improved. There are spacious well-equipped dissecting rooms and ample material for dissection.

Every teacher is an experienced person with special British qualifications and most of the assistants have high qualifications. (vide List of Teachers).

E. Mysore University is not merely an affiliating University, but a teaching University, having its institutions under direct control and all teaching is done in English and on the model of English Universities. Its graduates in Arts and Sciences have been granted by the London and other British Universities privileges not inferior (sometimes superior) to those given to corresponding graduates of other Indian Universities for purposes of post-graduate studies for the degrees of Ph.D., D.Sc., D.Litt., etc.

In these circumstances, we request that you will be pleased to place the matter for the kind consideration of the Board for inclusion of the Mysore University Medical College in the said schedule. We feel the matter to be one of vital urgency, as it seriously affects students of one of the most advanced Indian States who intend to pursue higher studies in medicine in England.

We wish to draw your kind attention to the relevant pages of the Mysore University Calendar and to information regarding some of the Hospitals contained in a handbook, which we personally handed to you.

Thanking you, We remain, Sir,
Yours obediently,

Sd/J.F. Robinson
Principal Medical College, Mysore.

Sd/ B.K. Narayana Rao
Formerly Principal, Med. College and Superintendent, Minto Hospital Mysore State.

P.S. Further correspondence may kindly be addressed to Dr.J.F. Robinson, M.D., F.R.C.S., E., 17 Pembridge Sq., London, W.2.

24th July, 1933.

To The Secretary,
Conjoint Examination Board,
Examination Hall,
Queen's Square,
LONDON.

Sir,

In continuation of our letter of the 13th July regarding recognition of the M.B. B.S. course similar to the M.B. B.S. of other Indian Universities, we wish to explain the following points which were not mentioned in our letter:-

-1) Mysore, being an Indian State directly under the suzerenity of Britain, any contemplated legislation in British India to create an Indian Medical Council, does not immediately or directly affect the position of the Mysore M.B. B.S. which is beyond British Indian Territorial jurisdiction.

-2) One of the chief points of controversy between certain British Indian Universities and the General Medical Council here regarding inadequacy of midwifery practical training has no application to us, as there are ample opportunities owing to non-existence of the Purda System. In fact, some of the British Indian Universities were sending their students till recently to one of the Hospitals in Bangalore for midwifery practice.

-3) Early grant of recognition would greatly help other graduates to begin their post-graduate studies in England from the beginning of the next academic year. Pending permanent recognition, such students as come here might be kindly considered as special cases and given the exemption sought for.

We remain, Sir,
Yours obediently,

Sd/ J. J. Robinson
Principal Medical College.
